### WELL EQUIPPED. STATES REPORT TO FIGHT BACK

Several Thousand Making Way  
Toward Cork Where They  
Will Make a Stand

### GUERRILLA WARFARE EXPECTED

Doubted, However, That They  
Will Make Stand Before  
They Reach City

DUBLIN, July 22.—With both  
banks of the republican insurgent  
army broken, through yesterday's  
capture of Waterford and Limerick,  
military troops were reported re-  
treating in the direction of Cork.  
They are believed to number some  
thousands of soldiers sufficiently  
equipped with all arms, except ar-  
tillery, and are expected to give the  
official army forces considerable  
trouble in guerrilla tactics, but it is  
doubted if they will make a deter-  
mined stand before reaching Cork.

EMPERIA, July 22.—The arrest of  
William Allen White of Emporia, Kan-  
sas, and editor, for displaying a pos-  
ter, sympathizing with the striking  
railroad men, will probably be  
made today. It was announced by  
Governor Allen.

The announcement followed a per-  
sonal report to the governor by Judge  
J. A. McDermott of the industrial  
court on his pilgrimage to Emporia  
late yesterday, and his failure to  
persuade White to remove the pos-  
ter from his newspaper office win-  
dow. Test to determine whether the

cards will have to come down from  
every window in Kansas."

imately 250 blinker signs, designed to

of sharp curves and unexpected cross-

### INTERSTATE COMMERCE COM- MISSION REFUSES TO CONSIDER PE- TITION OF RENO PEOPLE

Refusal of the interstate commerce  
commission to consider the petition  
of the Southern Pacific and Tonopah  
& Goldfield Railroad company to put  
in a \$1.10 fourth class rate between  
Reno and Tonopah has led to the  
preparation of another petition ask-  
ing that the original state rate case  
be reopened insofar as it pertains to  
the Reno-Tonopah rate, according to  
information received by E. H. Walker,  
traffic manager of the Reno cham-  
ber of commerce.

Under the rate adjustment be-  
tween coast points and Reno and  
southern Nevada, made in April, to  
meet parcel post competition, a rate  
of \$1.34 on fourth class less than  
carload freight was put in between  
Reno and Tonopah. Reno entered a  
protest against the change on the  
ground that it disturbed the freight  
relations existing for several years,  
and made it impossible for Reno  
wholesalers to compete with coast  
points for southern Nevada business.

An adjustment was secured whereby  
the rate was reduced to \$1.22, but  
the differential between less than  
carload shipments from the coast to  
Tonopah was still greater than the  
combined rate on carload shipments  
to Reno from the coast and less than  
carload shipments from Reno to  
southern Nevada.

As a consequence, the Reno whole-  
salers, doing business in southern  
Nevada, continued to ship by par-  
cel post at a rate of \$1.08 for fourth  
class shipments. The railroads, fol-  
lowing a series of conferences here  
and the filing of rate cases by the  
Reno shippers, agreed to ask the in-  
terstate commission to allow them  
to put in a rate of \$1.10, but the  
commission refused on the ground  
that it could not disturb state freight  
rates unless they were taken up un-  
der the general state advance rate  
case.

Forces are Augmented With  
Thousands of Clerks

### BOTH SIDES ARE DETERMINED

Michigan Central Lines Yield  
and Grant Wage Scale Ef-  
fective Before July 1

CHICAGO, July 22.—The railroad  
strike entered its fourth week today  
with the announcement from the  
clerks' union headquarters that 18,  
000 additional office employees in  
various sections had voted to strike.  
Apparently all peace negotiations  
were at a standstill, with both sides  
determined to hold firm to their  
original positions and the country  
at large is waiting in nervous ex-  
pectancy and abject hopefulness that  
something might happen soon to set-  
tle the difficulty.

DETROIT, July 22.—A strike of  
auto maintenance of way men on  
the Michigan Central lines has been  
announced by the signing of a wage  
agreement restoring the scale ef-  
fective July 1. It was announced to-

weeks, according to present indica-  
tions, to test the success of efforts

strike, the government in the mean-  
time is pushing its plans for the  
distribution of the dwindling coal  
supply to insure continued operation  
of railroads and essential industries.

LONDON, July 22.—The demand

### HORSE BECOMES PRE-HISTORIC IS OPINION OF MANY

This May Be Subject of Debate  
On Which Animal Expected  
To Stand or Fall

DETROIT, July 22.—"Described  
That the horse is a pre-historic ani-  
mal, that his functions have been  
taken over by the motor truck, and  
that civilization has no further need  
for him in the cities."

This well might be the subject of  
a debate on which the horse is ex-  
pected to stand or fall and that will  
be one of the highlights of the an-  
nual convention of the National Team  
and Motor Truck Association, to be  
held at Cedar Point, O., August 7,  
8 and 9.

F. L. Henk of Detroit, secretary of  
the national organization, is authori-  
tative for the statement that the ques-  
tion of bringing the horse back into  
popularity for the short haul of  
freight and express in the cities  
is likely to be decided at the con-  
vention. Lovers of the horse will  
vie with proponents of gasoline driv-  
en vehicles in the debate.

Wayne Dismore of Chicago, sec-  
retary of the Horse Association of  
America, and an ardent champion of  
the animal, is to take the negative  
side of the debate, while F. W. Penn  
of New York, secretary of the motor  
truck division of the National  
Association of Commercial Clubs has  
been invited to cite figures intended  
to show that the horse is losing in  
popularity in the cities.

### ENTIRELY NEW BEAR STORIES ARE AMUSING

Yarns Brought in from Prince  
George And Is Vouched for  
By Eye-Witnesses

PRINCE GEORGE, B. C., July 22.—  
Associated Press by Mail.—Two  
amusing bear stories, both vouched  
for by reputable eye-witnesses, are  
being told here. Forest fires in  
northern British Columbia during  
the past month have had a peculiar  
effect upon some of the wild ani-  
mals of the woods. Judging from  
some of the stories brought in to  
Prince George.

A fight between a fire-eating bear  
and a mule, in which the bear was  
worsted, occurred at L. Mason's ranch  
at Belthel, B. C. The forest fire  
routed the bear from its lair, and  
in its dash from the flames into the  
open country it collided violently  
with a jack mule. The bear was  
promptly stretched out on the ground  
by a double tattoo from the capable  
hind hoofs, and the mule calmly re-  
sumed its interrupted grazing.

Thoroughly angered, the bear  
picked itself up and cautiously ap-  
proached the mule from a different  
angle. The huge paw was brought  
down with a resounding whack on  
the mule's ribs. This was unfor-  
tunate. The hoofs were again  
brought into play, after a quick, ac-  
curate maneuver for position, and the  
fight was called off so far as the  
bear was concerned. Mr. Mason,  
who had witnessed the unusual en-  
counter, dashed to the house for a  
rifle to finish the bear, should any  
life be left. Before he could get  
back to the scene, however, Bruin  
managed to get groggily to his feet  
and return to the less exciting envi-  
ronment of the forest fire.

A fire patrol ranger is sponsor  
for another bear story. While mak-  
ing a survey in the mountain district  
he came upon a young cub suffer-  
ing from severe burns on feet and  
body. The youngster was whimper-  
ing from the pain and the ranger  
took pity on it, lifted it into his car  
and there made it fast with some  
ropes.

The patrolman started on his jour-  
ney only to discover that the moth-  
er bear had appeared and was in  
hot pursuit. As the track ran up-  
hill at this point, the bear, making

### TEXAS SPECIAL COLLIDES WITH FRISCO TRAIN

Accident Occurs Twenty-Five  
Miles West of Springfield,  
Missouri

### ORDERS WERE MISCONSTRUED

Thorough Investigation Prom-  
ised by General Offices of the  
Railroad Company

SPRINGFIELD, Mo., July 22.—Two  
passenger trains collided at a head-  
on collision at Lehigh, Mo.,  
25 miles west of here. Engineer  
Rising on No. 2 was killed.

ST. LOUIS, July 22.—The head-on  
collision in Massachusetts to colli-  
sion on the Boston train at day.  
Mobilization was ordered by Gov-  
ernor Cox, who in a statement ap-  
pealed to public safety officials to  
preserve to civil it was announced at  
the state police headquarters. "The  
proclamation declares that the good  
name and is ready now to use every  
force at its command, whether civil  
or military."

### SOCIETY WILL TALK IMPORTANT MATTERS

TOKYO, June 29.—(Associated  
Press by Mail)—The country business  
men of America and Europe by  
Tokyo has been transformed into  
a permanent association under the  
name of "1922 Society." The or-  
ganization has in view the exchange  
of opinions among the members of  
the society by meeting from time  
to time for the discussion of the  
country's business policy.

Long stories gained steadily and the  
need for strategy was clearly in-  
dicated. The forestry book of instruc-  
tions does not cover a situation such  
as this, but the ranger was resource-  
ful and decided that the best plan  
would be to throw the cub over-  
board. His attempts to untie the  
cub from the machine, however, proved  
fruitless. The youngster to the machine,  
however, proved futile. Pursuer and  
prey came to a yet steeper grade  
with the advantage all with the for-  
mer. Finally, with one mighty ef-  
fort, the old bear threw herself on  
the back of the car, holding on by  
her claws and paws.

This is where the ranger decided  
to retire in favor of the enemy. He  
dove off the car and landed his  
feet in time to see it continuing its  
journey eastward, with a mother and  
child happily reunited as its pas-  
sengers. Later the automobile was  
found run down and everything in  
fact except the side of the car where  
the cub had been tied, the old bear  
laying out in a release her  
offspring.
